Option 2

There are 2 options to start placing the order

Eco-Seq is a new service designed for the scientists who want to enjoy both the easiness and flexibility in the DNA sequencing process.

If you have ever tried Macrogen's sequencing services Standard-seq and EZ-seq, you already understand the Eco-Seq system, because it incorporates all the advantages of both services while getting rid of inconveniences, so that you can spend your precious time on research or relaxation, not on complexity of making orders.

The name Eco-Seq stands for both Economy and Ecology.

You will see why this new service deserves this name once you give it a try.

Step 2

1. Choose "Tubes" or "96 well plates"

2. Choose service type

3. Click to continue

Step 3

Eco-Seq incorporates the easiness of EZ-Seq together with the flexibility of Standard-seq, and you may not need to print labels. And it is more economical than Standard-seq, with 24 hrs turnaround time.

Information input

Service	Eco-seq single direct <small>Each sequencing reaction has one single label assigned.</small>
Currency	EURO
Number of labels	<input type="text"/> (4.99 EURO per label) <small>List Price</small>
E-mail address for results	<input type="text"/>
Shipping Address (Labels and invoice shall be sent to there)	<input type="text"/>
ZIP code	<input type="text"/>
City	<input type="text"/>
Country	Netherlands ▼
Internal Reference #(PO)	<input type="text"/>
Frequently Used primer / Expected number of primer labels (If left blank, we will send you blank labels)	<input type="text" value="select"/> <input type="checkbox"/> Add Primer
<input type="checkbox"/> I want to receive 96-well plates and strip caps as well. (12 EURO per plate & cap)	

1. Please fill out all the information

Note:
 Min. Tube: 50 labels,
 Plate: 2 labels

2. Click here when all information required is filled out

Step 4

Eco-Seq incorporates the easiness of EZ-Seq together with the flexibility of Standard-seq, and you may not need to premix your primer with DNA templates while using the bar-code labels. And it is more economical than Standard-seq, with 24 hrs turnaround time.

Review your order

K Service	Eco-seq single direct	
Amount	50	Label (s)
Unit Price	4.99	EURO
E-mail for results	<input type="text" value="valerie.li@macrogen-europe.com"/>	
Shipping Address	<input type="text" value="Meibergdreef 31"/>
